

Texas Lottery® Officials Announce Resumption Of *Pick 3*® Sales

(Austin, June 17) - After suspending sales for the Texas Lottery® *Pick 3*® game last evening, lottery officials announced the resumption of sales this morning after receiving assurances from GTECH Corporation, the lottery operator, that the computer coding problem that caused sales to be suspended has been corrected. Based on initial review, lottery officials do not believe the security or integrity of the *Pick 3* game was compromised.

Last evening's *Pick 3* drawing was held as scheduled and the numbers drawn were 7-8-7.
