For an extra \$1 per play, the *Power Play* option gives players the chance to increase their non-grand/jackpot winnings by two, three, four or five times. Beginning Saturday, May 1, the 10X multiplier will be added. If drawn, it will allow players who selected the *Power Play* option to multiply their non-grand/jackpot winnings by 10 times.

The attached chart shows the 10X prize amount for each prize level. The *Power Play* multiplier does not apply to the *Powerball* grand/jackpot prize. The 10X multiplier can be drawn multiple times during the promotion. If a 10X is not drawn during the promotional period May 1-29, then the promotion will continue until a 10X is drawn.

“The Texas Lottery was thrilled to add *Powerball* to our game mix in January,” said Texas Lottery Commission Executive Director Gary Grief. “This *Power Play* promotion will bring additional excitement and entertainment to our lottery players by providing them with the chance to multiply their non-grand/jackpot winnings by up to 10 times.”
